Channel 17 Has A New Look

Sandy City is committed to constantly improving methods of communication and resources available in order to relay information to residents. The city currently has several methods of communication through the newsletter, website and the government access channel provided through Comcast Channel 17. Sandy City is joining other cities throughout the valley by partnering with Valley TV which is a division of Salt Lake Community College. Valley TV provides a diverse lineup of shows similar to a television station which airs content 24 hours a day. Sandy City has the opportunity to have customized content produced by the college through the Media Innovation Center that trains students majoring in media services. Also included in the programming is specific information for Sandy which airs several times throughout the day in a slide type format and includes events, programs, activities, phone numbers, and contact information for different departments throughout the city. Currently the broadcast is offered only to Comcast subscribers but can be viewed through any computer online at www.valleytelevision.net which utilizes Media Player. A weekly schedule is also located on Valley TV's website under Program Schedule.

TAKE EXTRA PRECAUTIONS ON STATE STREET DURING CONSTRUCTION

Sandy City Police Department would like to ask everyone traveling in the construction zone on State Street between 9000 South and 10600 South to take extra precaution and please obey the signs posted throughout the corridor indicating "No Left Turn." Accidents have doubled since the construction began due to drivers trying to pass vehicles waiting to turn left in a restricted intersection. Left turns are allowed at 10000 South and 10400 South but NOT at 9400 South or 10200 South. To receive weekly emails with updates on construction, contact Crystal at 262-8700.
